SORRY

Health ke taraf dyan dena

Ashish Sir , Aman Sir ko Bhagawan manalo , Focus clear, job tak job milane tak

Interview Preparation START kardo

Need of JOB

Knowledge/ Soft
Behavior / bharosa
khudape and STORY
pe/ Hadabadana nahi

Question / doubts / confuse / lack
of confidence / hesitation / fresher /
other field , Answer khojoge, help

DevOps Knowledge/ English /
Communication (Superstition)

Genspark Super Agent AI for resume, Chat GPT Prompt- I had 20 Years of DevOps
Experience, prepare my resume, latest tools include accordingly. JD prepare 2 Day time to
schedule interview , MOCK 50 Interview fail

Put This On Naukri portal with immediate joiner, upload 5 Resume-5 email ID and 5 Sim
card (1 upload resume in 3 working days interval), your interview will start once you will
get a FIRST call from HR or consultancy

BIG YES to HR and consultancy- apana Fan banao, pagal kar dena hai Example- PF hai?
main aim ability, "JD mango". Study and upload on linked

Naukri 70% call- regular update, 30% call linked in- POST - problem and
solution snap paint se banana real kare, "DevOps Recruiter add karo 5000
target ", Indeed- naukri gulf, GITHUB mew 10 project dalo, chat gpt se

7 year Experience DevOps minimum (Bhula do other than DevOps), for
freshers first year se IT room me part time. chaska laga DevOps ka (
STORY) killerkoda -ability lao, phir job mil jayego

**Confidence, Ex,- Interview start hone se 15 min pahele join with camera,
"Khudase Bolo Interviewer to buddhu hai", 3 bar usecase khudako bata do, as
per JD**

Cheat Sheet-keyboard- sean to cheatsheet in interview , banao A4- 2 mode dena or point
to point, systematic likhna chat gpt se, Intro HR separate- adami lana pain- Internal teamko
training, upskill , Tech- Separate high tech and Client ka separate- cost optimisation and
security , Interview no FAN, router and PC restart, adhar card leke baithana, background
lagake hi baithana hai

How to prepare usecase- is not fixed, JD Ke according convert, batana hai sab kuch short
me, aur JD ke according use case techincal, deep me jake ko acchese batana,

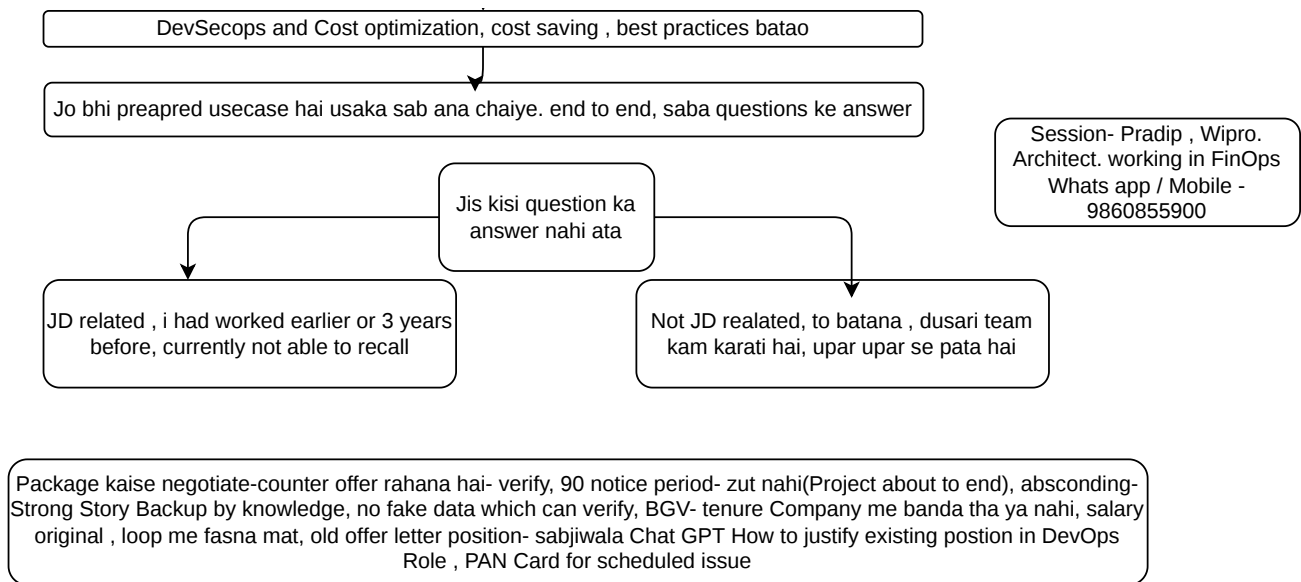

Chat GPT se banana hai, jd de do aur usecase banake, rato and rata hua firse chat GPT ke
microphone me bolo and verify from chat GPT to avoid mistakes

End to end DevOps , Code deployment through CI CD batanahi hai, JD pe focused jyada
batana

**IMPORTANT - Adaptability , maine Bank, Insurance, Pharama, automobile, hospital,
application domain, chance badhega selection ka**

Index .html file Killerkoda
1)Linux Home folder, git clone
<https://github.com/PradipGavhankar/dnyott-site.git>
2)cd dnyott- foldermadhe janyasathi
3)ls -kay ahe foldermadhe file copy zalya ka baghnyasathi
4)sudo apt update- linux machine update karanayasathi
5)sudo apt install nginx -y- Middleware install
karanayasathi/like IIS Win
6)systemctl status nginx - nginx install zala ka te
baghnyasathi
7)sudo rm /var/www/html/index.nginx-debian.html
sudo cp -r * /var/www/html/
sudo chown -R www-data:www-data /var/www/html
sudo chmod -R 755 /var/www/html
sudo systemctl restart nginx
